Experience

Senior Software Engineer - Jan 2024 - [Promoted]

Promoted to senior software engineer, I am steadfastly advancing ongoing projects with dedication to excellence.

Software Engineer - Sep 2022 - Jan 2024

Yoma Bank

Led the development of a 'Merchant Onboarding Application' for Yoma Bank to streamline merchant onboarding processes. This project involves collaborating closely with diverse teams and implementing agile methodologies for timely delivery and quality assurance. Ensuring seamless coordination among cross-functional teams to meet project milestones effectively. Leveraging innovative solutions to optimize the onboarding experience for merchants and sales teams alike. Committing to delivering a robust application that enhances operational efficiency and customer satisfaction. Emphasizing the importance of agility and adaptability in meeting evolving market needs.

Information Technology Instructor - May 2023 - Feb 2024 - [Part-Time]

BIM Training

I led comprehensive IT training programs, utilizing cutting-edge course outlines and materials to guide newcomers. Emphasizing both technical expertise and real-life scenarios, I ensured learners were well-prepared for practical challenges. Through personalized mentorship, I directed individuals toward successful pathways in the IT field. By integrating hands-on instruction, I equipped them with the skills necessary for navigating complex IT environments. My approach fostered transformative learning experiences, empowering individuals to excel in their IT endeavors.

Frontend Web Developer - Sep 2021 - Jan 2022 - [Full-Time]

Urban Real Estate

Crafted a cutting-edge website and strategically drove a notable 26% upsurge in property sales. Utilizing a sophisticated blend of Tailwind CSS, JavaScript, and jQuery technologies, I engineered a sleek, responsive platform that captivated users and facilitated seamless interactions. Working in tandem with the co-founder and clients, I meticulously developed an end-to-end solution tailored to their exact needs, ensuring every aspect of the project aligned with their vision.

Jr System Engineer - Oct 2019 - Apr 2020 - [Full-Time]

AGB Network Academy

Played a pivotal role in the network and system team, elevating vendor infrastructure and optimizing performance through proactive maintenance and strategic upgrades. Orchestrated seamless collaboration across IT departments, ensuring timely resolution of service desk tickets and fostering a cohesive working environment. Provided invaluable guidance to non-technical colleagues, empowering them to navigate IT challenges effectively. Additionally, assumed a key role in developing and maintaining meticulous operational documentation, enhancing clarity and accessibility for all stakeholders.

Skills

Microsoft Power Platform | React.js | React Native | Python | JavaScript | Typescript |

Node.js | Express.js | MongoDB | WordPress | Linux | Networking

Education Background

Bachelor of Science - Zoology - Feb 2018 - Present

Dagon University

NCFE Diploma In Information Technology (UK) - Nov 2019 - Aug 2023

Y-Max University
